Skills

Java, Python, C, HTML, CSS, JavaScript, PHP, TailwindCSS, BootStrap, ReactJs, jQuery, Redux, SASS, GIT

Experience

Rayacomint: (React.js, TailwindCSS)

September 2024 - October 2024

- Developed a fully responsive website for an import/export company as a freelancer, featuring a dynamic product catalog and optimized user experience across devices. Integrated custom UI components and internationalization support for French, Portuguese, and English.

ComicKaze: (WordPress)

April 2024 - June 2024

- ComicKaze is an ecommerce website built on wordpress. It specializes in selling anime merchandise. This platform offers a variety of products related to anime culture, catering to anime enthusiasts and collectors.

Projects

Personal Portfolio Website: (HTML, CSS, JavaScript)

March 2024 - July 2024

- As a Web Developer, I have designed and developed a personal portfolio website to showcase my skills, projects, and achievements.

QR-Generator: (HTML, CSS, JavaScript)

May 2024 - June 2024

- Created a sleek and user-friendly QR Generator website to demonstrate my UI design skills. This platform enables users to encode text into QR codes effortlessly.

Pixelicons: (HTML, CSS, JavaScript)

June 2024 - July 2024

- Pixelicons is a website that offers custom folder icons for Windows, allowing users to personalize their PC by changing the default folder icons to match their style preferences.

Netflix Clone: (React.js)

June 2024 - July 2024

- Made a netflixClone using Reactjs. It's a webpage to categorize the shows to redirect users to watch the show.
